

Secure Safe Trend I Deposit

for securely depositing cash and valuables

• £1,000 cash rating

With the escalating threat of armed attack, many small businesses and retailers require quality solutions to protect their cash, deposits and vouchers. The "Secure Safe Trend I Deposit" from SecureLine is one such solution. Based on the Trend I safe design, this safe successfully incorporates a deposit slot. This allows multiple users to constantly deposit cash and valuables whilst the main body of the safe remains locked. Key features include a £1,000 cash rating, anti-fishing plate, steel construction, electronic LCD locking and a fixing kit. Such product advantages illustrate SecureLine's commitment towards providing the "best value security solutions"...

Models

- The Secure Safe Trend I Deposit is available in 2 models, specially designed to deposit and securely store cash and valuables
- The deposit slot is located above the safe door and measures 170 x 15mm (width x height)

Construction

- The Trend I range is constructed with an 8 mm solid steel door and 3 mm steel body
- Increased security is achieved by hardened steel plates which protect lock, boltwork and bolts against drilling
- The door is secured by chrome plated, 25mm diameter bolts
- The Deposit slot is fitted with a full width anti-fishing plate to resist unauthorised removal of items deposited

Locking

- The safes are available with a double bitted key lock or electronic PIN-code lock (6 digits) with a LCD-display
- Override key supplied with electronic version
- Electronic locking is only available on the size 32

Additional features

- Fixing kit allows DIY securing of safe to floor and/or wall

Design

- The Trend range has modern styling and will complement any user environment
- The safes are in two-tone colour powder coated finish; light grey and dark grey
